

# Network Leaderboard Terms and Conditions

## Lucky Rush Tournament - Playtech

Promotion Duration: 25th October 2024 12:00 CET to 1st December 2024 23:59 CET for a total of 38 days

The Promotion consists of 5 network leaderboards, with dates listed in the table below.

The total prize fund for the Promotion is an estimated amount of 500,000 EUR in cash.

Each leaderboard will pay out an estimated amount of 100,000 EUR in cash.

The amounts are estimated and may be more, or less, depending on currency conversions, as well as numbers of players.

The first four leaderboards will pay out up to 5,000 players, with the final leaderboard in this Promotion paying up to 8,500 players.

Participating players will be paid fixed cash amounts as detailed in the prizes table below.

Winnings from this Promotion will have no wagering requirements and can be withdrawn immediately upon crediting by Circus.

To take part in the Promotion, the player must open a participating game and “Join” a network leaderboard.

The player must join each network leaderboard individually. Opting into one leaderboard will not automatically gain entry to other leaderboards in the Promotion.

No player will be able to opt in to a leaderboard during the final 30 minutes of the leaderboard.

There is no minimum bet for a player to take part in the Promotion.

After joining each Leaderboard, the player will be able to play 5,000 spins that will count for points earning purposes.

If a player leaves a leaderboard and rejoins, they will lose their earned points total and will not be allowed any extra spins towards the Promotion.

Results for each Leaderboard will be available to players approximately 15 minutes after the leaderboard finishes.

Each leaderboard will take the players top 25 individual scores as the players’ final points total. Any other points earned will be disregarded.

In the event of a tie on points, the player who has the most remaining events available will be considered the higher-ranking player. If players are tied on both points and events, then whoever achieved their score first will be considered the higher-ranking player.

Points will be awarded based on the win to bet ratio of each individual spin. For example:

o Player stakes £2 and wins £100

- $100 / 2 = 50$  Points

o Player stakes €10 and wins €15

- $15 / 10 = 1.5$  Points

To receive a prize, players must have a point total greater than or equal to one (1)
